THE RECIPROCITY IDEA.

Mr. Schuiz condemns the effort of Congress to secure reciprocity of trade with certain countries. [Laughter, The Iree traders have always been tolling us that if we would adopt their theory we would have a new era in this country. On that form of statement I will not differ from them. [Laughter.] I think we should have a new era. Congress at its last session concluded to adopt a new policy. They looked at South America and they found that we were receiving from these people vast imports and exporling little to them. The question was, shall we repeal the duty on sugar and give that to South America, in addition to the coffee and the hides, and the dye woods, and the rubber, and the other things from South America, and shall we ask these men:

"If we give you these markets for the pound will you let us enter yours for a few shillings?" [Applause].

"Oh, no; Mr. Schuiz says that won't do at all. You must resort to free trade. But I would like to ask Mr. Schuiz before this Ohio andieace how free trade. But I would like to ask Mr. Schuiz before this Ohio andered how free trade. But I would like to ask Mr. Schuiz before this Ohio andleace how free trade. But I would like to market for their nearly \$60,000,000,000 of products, and they were taking from us seven.or eight or nine millions.

FREE TEADE WOULDN'T HELP IT.

Now suppose we declared absolute free rade. How would that help us with Brazil? They have not been buying mything and they do not let anything in free. Thirty six million dollars worth of coffee, fourteen to sixteen millions of rubber, several millions of hides and a great many dye stuffs and wood of that kind, all come into the United States without a shilling of duty. But we want to send down there some flour, some lumber, some corn and wheat, the pro-ducts of the West as well as of the East, and are not "aliefied as thin; s were

Blossom positively cures all forms of
female weakness, such as Painful Meinstruation, Ulceration, Larceration, Barrenness, Leucorrheea, Pruritus, Cancer,
Ovarian and Fibroid Tumors in their carly
stages and the long list of innumerable and unmentionable sufferings that
afflict the patient. The Olive Blossom
treatment is simple and harmless. The
first application often gives permanent
relief. Try it, and you will exclaim,
as hundreds of others have: "Oh, I
feel like a different woman!" One
month's treatment sent postpaid to any going. [Laughter.]
Well, we went on and awakened then side of the one man or on the side of the one nation. [Applause.] Well, that was reciprocity. It is not a very complex problem. Mr. Schouz rather intimates problem. Mr. Schotz rather intimates it is a strange way of getting at things. How strangely inysterious reciprocity is. It is just as strange and mysterious as whan a Starke county farmer brings a hundred bushels of wheat to Canton, gots his money for it, buys aupolies for his family and goes back home. [Laughter.] That is a mysterious process, very difficult to understand. Yet I am sure that Brazil and all the South American States understood the moment it was neet like a different woman!" They bring us \$10,400,000 worth of products. But how much of that is taxed, do you suppose, at the Custom House? Only \$8,000 escapes taxation. We send them a good many things, but we do not send them one shilling's worth that is not taxed by them. That is not fair. They admit that it is not fair and they are glad and willing to right the matter on reciprocal ground that will be to the prosperity of this country and to the prosperity of the country and to the prosperity of others. A trade that is so_one-sided as that cannot be continued forever.

I have not seen an approval from any free trade country of the reciprocity idea that has stood the test for three months. When reciprocity was first suggested. Take a country like Venezuela, of large

Blaine and Minister Phelps discovered at a quick glance that the gallery was is in no danger of falling, and both shouted to the crowd and waved their hands to reassure the excited throng. When quiet was realored, Mr. Blaine resumed his remarks as follows:

Now, as I was saying, these free traders thought that the Republican party would be atampeded. [Applause.] Now the Republicans are not frightened by a crack. [Cheers.] As long as the free traders thought that there would be a division in the Republican party they encouraged reciprocity but very soon they found that the Republican party they encouraged reciprocity but very soon as the free traders found that reciprocity provision was adopted by the Rsymblican Congress. [Cheers.]

Just as soon as the free traders found that reciprocity provision was adopted by the Rsymblican Congress. [Cheers.]

Just as soon as the bree traders found that reciprocity could not be used to divide the Republican party they were all against it. [Oheers] Every one of them; and now they are repudiating it and telling you what a humbng it is, and how little value there is in it, and how small it will be to the people of the country from it.

Well. It is never wise to make a pre-

Well, it is never wise to make a pre liction before an event. It is not wise for the free traders to proclaim its failure at present. I don't propose to say

anything about its success. We are given a year in which to try it. Let us wait a a year in which to try it. Let us wait a year and see what can be done. [Cheers] I am not here to boast of it. I am here to condemn the course of the free traders, who, as long as it promised to divide the protectionists were in favor of it, cut who are set against it at the moment they find that protectionists will not divide. [Cheers.]

Your duty, gentlemen, if I may suggest it, is to elect a protectionist to Congress. [Cheers and cries of "We will."]
That is your interest, that is the interest of every district in the country, and I appeal to this district because of the interests at your doorsel and fireside. I appeal to every man in Starke county and in the three char counties that make up the district. But you have a special reason. The Congress has 325 members. It is a very great distinction to any man, a distinction to the district represented, and a distinction to the man himself to be placed at the head of
